

President's Message

This is a special year for us as we celebrate our 90th birthday. I am looking forward to seeing you at our Congress this year which is followed by the Annual General Meeting. If you have never been, why don't you come along and see what it's all about.

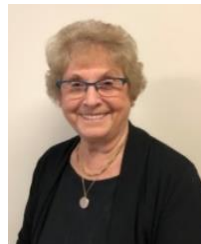

We are already halfway through the year. By now I am sure all of us or most of us are fully vaccinated. Now that restrictions have eased, and we have done away with masks and lockdowns, let us support each other and get involved. Please join one of our branches if you do not belong to one.

The Project at Salter Point is now on its second level. It has been difficult, as you may already know to source building material as there is a shortage, but we are getting there.

To keep abreast with the new government regulations and working with the ACNC, we have recommended changes to our constitution. This has been attached to your newsletter.

If you are looking to downsize why not visit one of our retirement villages or if you want to take advantage of our low cost affordable funeral fund, please call Head Office on 9362 0100.

Your President Lois Jones
